From: RGPV Exam June 2021 <rgpvexamjune2021@rgtu.net>
Date: Sun, Jul 11, 2021, 01:23
Subject: Regarding confidential work
To:

Dear Sir/Madam,

Greetings of the day!

RGPV, Bhopal has identified you as a paper setter to set the paper(s) of B Pharm I Sem for the exams to be conducted in the session July 2021.

You have to set 100 questions (on MCQ pattern) from the complete syllabus of the allotted subject under the allotted unit i.e. unit-1.

The portal URL is c.rgpvexam.in/papersetter
your login id: your email id
Your password: as given in attached SOP

You are required to change your password when you log in for the first time. If you have already logged in before, then use the password which you have set earlier.

You have to set the questions from each allotted Unit(s) strictly as per the scheme given in the allotted unit(s) of the concerned subject(s) unless stated otherwise. Scheme can be seen at the top of the page when you click on the "view questions" and/or "add questions" tab under the allotted unit(s) of the subject code.

*The syllabus of the allotted unit(s) is available in the "view syllabus" tab. If it is not available there, it is attached with the email. Please choose the syllabus of the allotted subject from the attached syllabus and set the paper from it.

- *There should be at least 40% numerical questions
* In case you choose to include any solved example from any text book or any other resource, please ensure that the data in the questions are changed.
*In case the subject is completely based on theory you need to ensure the difficulty levels as per the marks of the questions.
* Since the questions as well as the options of the question will be randomized, you are requested not to include any questions having options "true/false", "Yes/No", "both", "none/all of the above" etc.
* You have to provide the correct option in the portal.

Remuneration for setting 50 questions is Rs. 2200/- only, for 100 questions is Rs 4400/- only and so on . You are requested to complete your profile so that the remuneration can be transferred online.

The last date to submit the paper is 17 July 2021.

Important: You are requested to compulsorily Go through the SOP for paper setters, attached with this email, and the video through the link given in your login portal before setting any question paper.

You are further requested not to access the portal from 14:00 Hrs - 15:00 Hrs and 00:00 Hrs - 01:00 Hrs everyday as the server will be closed for

Add on / Certificate program Syllabus

AOCP-101 Effective use of ICT

Scope: This is introductory course in ICT This is deal with Information and communications technology (ICT) is an extensional term for information technology (IT) that stresses the role of unified communications and the integration of telecommunications (telephone lines and wireless signals) and computers, as well as necessary enterprise software, middleware, storage and audiovisual, that enable users to access, store, transmit, understand and manipulate information.

Objective: Upon completion of this the student shall be able to:

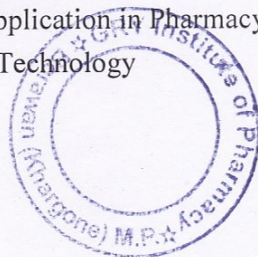

- Well understand of term ICT and its facility provided by institute.
- Students also gain knowledge about internet and its uses.
- By the end of session students familiarize with audiovisual interaction like video conferencing.
- Students able to operate different type of application that provide ICT environments to student like Zoom meeting app, team meet, Google meet etc
- Students also increase their searching ability to find some authenticated article and useful information
- Know the theory and their application in daily life

Course Content:

- Basic knowledge of computer hardware and software.
- Introduction of Information technology and its uses.
- Internetworking, Email communication devices
- Audio visual environment and equipments
- Uses of Mobile application for ICT

Recommended Books

1. Basic Computer application by Dr. S.S Shivastava .
2. Computer Application in Pharmacy by Mr.Sachin Kulkarni
3. Information Technology

AOCP-102 Effective communication skills”

Self Introduction

Importance of self-introduction – important points in self-introduction – how to introduce oneself in the proper way.

Introduction To Effective Communication

The characteristics of an Effective Communicator – importance of communication – basics of communication – elements of effective communication.

Components Of Effective Communication

An introduction to the components of communication – verbal communication – non-verbal communication, tone of voice – application and practice.

Understanding Communication Barriers

What is a barrier? – different types of barriers to communication (language barrier, cultural barrier, physiological barrier, physical barrier, psychological barrier, gender barrier, emotional barrier).

Effective Verbal Communication and Non-Verbal Communication

Effect and impact of communication – importance of verbal and non-verbal communication- elements of non-verbal communication – interpretation of various body signals - limitations of non-verbal communication -positive communication.

Different Types of Communication

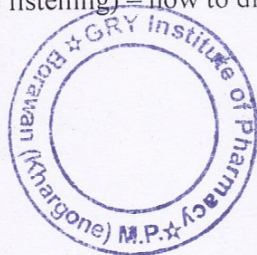

An introduction to different types of communication – verbal, non-verbal communication, written communication, visual communication.

Activities – Role play, guessing games.

Role of Listening In Communication

Listening – the impact of listening on communication – types of listening (evaluative, active, empathetic, appreciative listening) – how to display effective listening?

Emotional Intelligence

Principal
GRY. Institute Of Pharmacy
BORAWAN (KHARGONE) 451 228

Visit us at <http://www.gryip.com>; E-mail: principalgry@gmail.com

Emotional intelligence – components of emotional intelligence – importance of emotional intelligence in leadership.

Understanding Thoughts and Behaviours (Dealing With Difficult Behaviour)

Importance of understanding thoughts and behaviours for better communication – ways to manage one's thoughts and behaviours.

Formal and Informal Talk – Speak English Professionally

Definitions and difference between formal and informal talk – how to talk or interact formally and informally – difference between online communication, face to face communication, phone conversation.

Probing and Acknowledgement (Effective Questioning)

Importance of questioning – difference between open ended and close ended questions – art of questioning – asking questions to clarify doubts and building strong relationships – (open ended question: What did you expect to happen?, What did you like about our service? Close ended questions: Have you enjoyed the event? Do you like our service?)

Principles of Conflict Management

What are principles of conflict management – principles of conflict resolution (avoiding, defeating, compromising, accommodating, and collaborating).

Management Skills

Importance of management skills in college leadership – ways to develop management skills.

Communication Skills for Effective Leadership

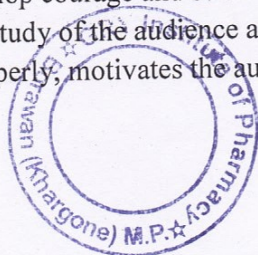

Role of communication in leadership – how to exhibit leadership communication skills? – best practices for effective communication.

How to write effectively?

An introduction to writing – different types of writing – ways to organise the content.

Public Speaking

How to develop courage and self - confidence? – purpose of speech, preparation patterns and outline of speech – study of the audience and speech situations – how to start the speech, deliver the message properly, motivates the audience and end the speech?

AOCP-103 Industrial Training Programme

Scope: This course is designed to impart primary knowledge on Pharmaceutical industry.

Objective: upon completion of the course, the student shall be able to;

1. Know the process flow of the industry.
2. Understand the industry facilities from material entry to product dispatch.
3. Know the good manufacturing practices and different guidelines.
4. Understand the Quality managements system.

Topic I: Overview of pharmaceutical industry

Overview of pharmaceutical industry and its role in healthcare system, Career options in pharmaceutical industry, Different functional departments and their role in pharmaceutical industry, Good Industrial Practices Discipline, personal behavior, and personal safety, Motivation, Time management, communications & Team work.

Topic II: Facilities & Equipment System overview

Facilities Design/Layout, HVAC Design, Monitoring of clean room & filter validation, Water system, Qualification of equipment, Preventive maintenance of equipment, Calibration, Team work

Topic III: Good Manufacturing Practices

(Schedule-M, WHO GMP, EU guidelines and USFDA guidelines)

Schedule-M, WHO GMP, EU guidelines and USFDA guidelines, Quality assurance - Role and responsibilities, Batch reconciliation and Finished goods release, Sanitization and hygiene, Complaints and recall, Self inspection and quality audits Personnel Training, Personal hygiene, Premises, equipment and materials

Topic IV: Quality Management System & Quality Control

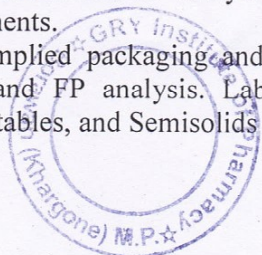

Change Control, Deviation-(planned and unplanned), Incident, CAPA, Handling of non-conformance, Out of specification (OOS), Market recalls, Market complaints, Laboratory control systems, Facilities and equipment systems, Packaging and labeling system - Design of artworks and legal requirements.

Chemical and physical analysis, Instrumental analysis (GC, HPLC, UV, Dissolution), Standards (RS and WRS) Good laboratory practices, Application of microbiology in pharmaceutical testing, Impurities (known and unknown): ICH guideline, Calibration of instruments, Packing material analysis, Post release monitoring-complaints, recalls

Topic V: Manufacturing & Packing of Dosage Forms

Manufacturing of Dosage Forms, cGMP complied manufacturing and documentation aspects including Environmental monitoring, Cleaning (Equipment, Area, Environment), BMR, Process flow, in-process checks and FP analysis, Tablets, Capsules, Liquid Orals, Parenterals/ Injectables/ Semisolids/ Ointments.

cGMP complied packaging and documentation aspects including BPR Process flow, in-process checks, and FP analysis. Labeling requirements for Tablets, Capsules, Liquid Orals, Parenterals / Injectables, and Semisolids / Ointments.

AOCP-104 HPLC and UV Spectroscopy

Scope: This course deals with the application of instrumental methods in qualitative and quantitative analysis of drugs. This course is designed to impart a fundamental knowledge on the principle and instrumentation of spectroscopic and chromatographic technique. This also emphasizes on theoretical and practical knowledge on analytical instruments that are used for drug testing.

Objectives: Upon completion of course the student shall be able to

1. Understand the interaction of matter with EMR and its application in drug analysis.
2. Provide the basic principles, operation and analyses using ultraviolet-visible and HPLC.
3. Practice students to interpret spectra.
4. Provide students experiences on using spectroscopic instruments and develop their skills in laboratory.
5. The course includes demonstrations of the operation of selected spectrometers. The focus will be using spectroscopy to solve experimental problems and provide interpretation of observed phenomena.

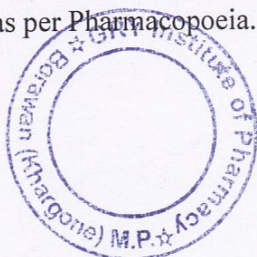

Course content

Spectroscopy

Fundamentals of Spectroscopy: Classification of spectra i.e. line, band, continuous spectra / absorption, emission spectra; Wave properties of electromagnetic radiation; Particle/photon properties of electromagnetic radiation; Electromagnetic spectrum.

UV-VIS Spectroscopy

Theory; Beer and Lambert's law - limitations and deviations from the law; Terminologies associated with absorption measurements; Types of transitions; Factors affecting spectral characteristics (structural and nonstructural); Effect of conjugation; Wood ward Fieser rule; Photometric titrations; Instrumentation, applications (in analysis of organic compounds and inorganic complexes), advantages and limitations of UV Visible spectroscopy; Quantitative analysis of binary mixtures of absorbing substances by simultaneous equation method; Calibration of UV Visible Spectrophotometer as per Pharmacopoeia.

Principal,

HPLC

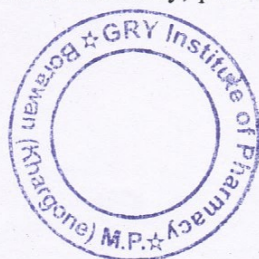

Theory, Instrumentation - description of the different parts of the equipment, stationary phases (columns), mobile phase, detectors - UV detector, RI detector, Fluorescence detector, Photo Diode Array detector, ELSD, conductometric detector, and electrochemical detector, applications, advantages and disadvantages.

Practical: AOCP104P

1. Calibration of UV spectrophotometer.
2. To determine % purity of paracetamol by UV spectrophotometry.
3. Determination of λ_{max} , $A(1cm1\%)$, Detection-Quantitation Limit and preparation of calibration curve (Verification of Beer's law) for any drug by UV-visible spectrophotometer.
4. To determine % purity of Diclofenac Sodium by UV spectrophotometry.
5. Effect of pH and solvent on the UV spectrum of given compound.
6. To determine excitation and emission wavelength of drug by spectrofluorimetry.
7. To determine isosbetic point of indicator by UV Spectrophotometry.
8. To determine dissociation constant of indicators by UV spectrophotometry.
9. To determine % purity of Paracetamol and Diclofenac Sodium Combination as per IP1996.
10. Simultaneous estimation of Paracetamol & Ibuprofen/any other combination by simultaneous equation method.
11. Demonstration on experiment on HPLC.

References Books:

1. Principles of Instrumental Analysis Skoog, Holler, Nieman, 5 th edition.
2. Instrumental Methods of Analysis, H.H. Willard, L.L. Meritt, J.A. Dean and F.A. Settle Wadsworth, New York.
3. Pharmaceutical Analysis: Modern methods Part A, Part B, James W. Munson.
4. Vogel's Text Book of Quantitative Chemical Analysis, G. H. Jeffery, J. Basset, J. Mendham, R. C. Denny (Rev. by), Longman, London
5. A Textbook of Pharmaceutical Analysis. Connors K.A.
6. Practical Pharmaceutical chemistry, part 1&2, A.H. Beckett and J.B. Stenlake, the athlone press, London.

AOCP-105 Personality Development and Enhancement In Communication Skills

Self Introduction

Importance of self- introduction - how to introduce oneself in front of others – main points to be included in the self - introduction.

Activity – Listen and repeat, do the opposites.

Understanding Thoughts and Behaviour

Importance of thoughts and behaviour in communication –better ways to understand others thoughts and behaviour for better communication.

How to develop an acceptable personality?

What is personality? – importance of personality – the importance of developing an acceptable personality for success (personality traits like – discipline, efficiency, organisation, optimism).

Activity – Gratitude circle, team play.

Listening Practice

Difference between listening and hearing – why listening is important? – various types of listening (active listening, informational listening, sympathetic listening, critical listening,..).

Activity – storytelling listening game, partner conversation, listening to dialogues (movie clips, videos).

Vocabulary and Word Formation

What is vocabulary? – how to develop vocabulary? (word formation- compounding, blending, acronyms, synonyms, antonyms, one word substitution) – definition of logical vocabulary – logical vocabulary list (deductive, logical, analytical, informative, instructive,..).

Importance of Communication And Communication Styles

Definition of communication – importance of communication – different styles of communication (assertive, passive, aggressive, passive-aggressive, manipulative, submissive).

Interpersonal and Intrapersonal Communication

JNCET'S

GRY INSTITUTE OF PHARMACY

Vidya Vihar, BORAWAN (Khargone) MP – 451 228, ☎ (07285) 277846-48

Visit us at <http://www.gryip.com>; E-mail: principalgry@gmail.com

Difference between interpersonal and intrapersonal communication – importance of both interpersonal and intrapersonal communication for better understanding and clarity of thoughts.

Effective Questioning

Importance of questioning – how to ask questions to clarify doubts? – how to start a good question?

Speak English Professionally: In Person, Online and On Phone

Difference between formal and informal communication – difference between communication through: online, on phone, in person.

Communication for Effective Leadership and to Increase Self Confidence

Why communication is important for leadership? – Ways to develop communication for effective leadership (be present, know your audience, practice active listening, communicate relentlessly, simplify and be direct, listen and encourage).

First Year Writing: Pedagogies, Methods and Design

Importance of writing – basic elements of writing (planning, organising, editing, revising), error correction, linguistic development, how to frame answers.

AOCP 106 Basic Computer Skills and Effective use of Internet

Scope: This is introductory course in This basic computer skills course will provide to students with an understanding of the most popular, current technologies used at home and in the workplace. students will become computer literate in this hands-on course while they learn to access, create, save and manage documents, spreadsheets and emails and use the Internet effectively. We demystify terminology and impart best practice skills for productive and secure use of hardware and software

Objective: By the end of this course, students should be able to:

- Appropriately start up and shut down your computer
- Navigate the operating system and start applications
- Perform basic functions of file management
- Perform basic functions in a word processor and spreadsheet
- Manage print settings and print documents
- Receive and send emails use a web browser to navigate the Internet.

Course Content:

- Basic introduction of Hardware and software
- Introduction of various Windows operating systems
- Working with application software programs
- Word processing, MS Excel ,MS PowerPoint
- Page setup and printer properties
- Accessing the internet, searching
- Creation and Use of E-mail

Recommended Books

1. Computer Application in Pharmacy by Mr.Sachin Kulkarni
2. Basic Computer application by Dr. S.S Shivastava .
3. Fundamental of computer

AOCP-107 Communication Skills and Personality Development

Self Introduction

Importance of self introduction (Importance of introducing oneself to others).

How to introduce oneself to others?

Important points to be included in the self introduction.

Importance of communication and communication styles

Definition of communication.

Importance of communication.

Different styles of communication.

Different types of Communication

The main four types of Communication.

Verbal communication – non-verbal communication – written communication – visual communication.

Pronunciation and vocabulary

What is Pronunciation?

Importance or role of Pronunciation in communication.

What is vocabulary?

Importance of vocabulary?

Synonyms and antonyms – word formation – one-word substitution.

Interpersonal skills

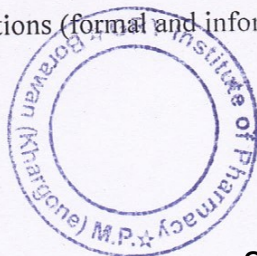

Definition

Importance of interpersonal skills in communication.

Listening practice, active listening

Purpose of listening

Listening to conversations (formal and informal – activity)

Active listening, an effective listening skill

Benefits of listening

Academic listening – listening to lectures.

Formal and informal talk

Difference between formal talk and informal talk.

Difference between the communication through online, on phone, on phone.

How to talk or interact formally and informally?

Effective Questioning

Importance of questioning.

Asking questions to clarify doubts as well as to build positive relationships.

How to begin or start a good question?

Communication skills for effective leadership

The different communication skills. How leaders communicate. Skills of a good communicator.

How to write effectively?

What is writing? Importance of writing. Elements of effective writing. Types of sentences.

Paragraph writing – letter writing – email writing – essay writing.

Public speaking

What is public speaking?

Importance of public speaking.

Different skills needed for a public speaker.

How to face an audience?

How to speak or deliver a speech without hesitation and anxiety.

AOCP108 Sophisticated Instruments

Scope: This subject deals with the application of instrument in qualitative and quantitative analysis of drugs. This subject is designed to impart a fundamental knowledge on the principle, instrumentation and use of spectrophotometer, Dissolution apparatus, Brookfield. viscometer, and HPLC This also emphasizes on theoretical and practical knowledge on instruments that are used for drug testing.

Objectives: Upon completion of course the student shall be able to

- Understand the analysis of drug sample.
- To provide facilities of sophisticated analytical instruments to students.
- To acquire and develop capability for preventive maintenance and repair of sophisticated instruments
- To organize short term courses/workshops on the use and application of various instruments and analytical techniques
- To train students for maintenance and operation of sophisticated instruments and
- Understand design and development of instruments/accessories of existing instruments.

Course Content

Spectroscopy

Fundamentals of Spectroscopy: Classification of spectra i.e. line, band, continuous spectra / absorption, emission spectra; Wave properties of electromagnetic radiation; Particle/photon properties of electromagnetic radiation; Electromagnetic spectrum.

UV-VIS Spectroscopy

Theory; Beer and Lambert's law - limitations and deviations from the law; Terminologies associated with absorption measurements; Types of transitions; Factors affecting spectral characteristics (structural and nonstructural); Effect of conjugation; Wood ward Fieser rule; Photometric titrations; Instrumentation, applications (in analysis of organic compounds and inorganic complexes), advantages and limitations of UV Visible spectroscopy; Quantitative analysis of binary mixtures of

absorbing substances by simultaneous equation method; Calibration of UV Visible Spectrophotometer as per Pharmacopoeia.

HPLC

Theory, Instrumentation - description of the different parts of the equipment, stationary phases (columns), mobile phase, detectors - UV detector, RI detector, Fluorescence detector, Photo Diode Array detector, ELSD, conductometric detector, and electrochemical detector, applications, advantages and disadvantages.

Rheology

Newtonian system, law of flow, kinetic viscosity, effect of temperature, non Newtonian system, pseudoplastic, dilatants, determination of viscosity, capillary, falling sphere, rotational viscometers

Tablet and Capsule

Formulation of tablets, wet granulation and direct compression method and evaluation of tablets and capsules by using instruments.

Practical: AOCP108P

Calibration of UV spectrophotometer.

To determine % purity of paracetamol by UV spectrophotometry.

Determination of λ_{max} , $A(1cm1\%)$, Detection-Quantitation Limit and preparation of calibration curve (Verification of Beer's law) for any drug by UV-visible spectrophotometer.

To determine % purity of Diclofenac Sodium by UV spectrophotometry.

Effect of pH and solvent on the UV spectrum of given compound.

To determine excitation and emission wavelength of drug by spectrofluorimetry.

To determine isosbetic point of indicator by UV Spectrophotometry.

To determine dissociation constant of indicators by UV spectrophotometry.

To determine % purity of Paracetamol and Diclofenac Sodium Combination as per IP1996.

Simultaneous estimation of Paracetamol & Ibuprofen/any other combination by simultaneous equation method.

Demonstration on experiment on HPLC.

Evaluation of paracetamol or aspirin/any drug in tablet

Sub: Inclusion in the panel of Inspectors of the PCI.

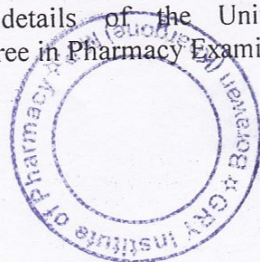

Sir,

1. The Pharmacy Council of India is pleased to include you on the panel of Inspectors.
2. The inspectors will be paid honorarium of Rs.2500/- per inspection.
3. Your TA/DA will be regulated by the Council as per the PCI guidelines for TA/DA claim.
4. The following documents are enclosed herewith.

- i) Relevant portion of the Regulations of the Council. (Appendix-I)
- ii) Guidelines for inspectors. (Appendix-II)
- iii) Guidelines for TA/DA claim (Appendix-III).

For Education Regulations, 1991 and Pharm.D Regulations 2008, kindly refer to PCI website www.pci.nic.in

5. Please arrange to send the information in the enclosed proforma (Appendix-IV)
6. Whether you would like this council to write to your employer that the period spent for undertaking inspection work be considered as duty by your employer. In that case please, let us know the full postal address of the office to whom we should write in the matter.
7. Please give details of the University/Examining Authority conducting Diploma in Pharmacy/Degree in Pharmacy Examination where you are an examiner.

Principal,
G.R.Y. Institute Of Pharmacy
BORAWAN (KHARGONE) 451 228

2..

..2..

8. You are further requested not to advertise the inclusion of your name on the panel of inspectors, say on your letterheads, visiting cards etc.
9. If you change your job, new address of the institution be intimated to PCI within 7 days of the change as the Council communicates at official address.

Yours faithfully

(ARCHNA MUDGAL)
