Annual Gender Sensitization Action Plan

GRY IP, Borawan, has been conducting Gender Equity and Sensitization Programs over the past 5 years and plans to continue doing various gender sensitization programmes in the next years.

- Women's safety and security
- Women's rights
- Self-defense workshops
- Gender equity and sensitization seminars
- Leadership skills, and health and nutrition education for rural women

are among the themes covered.

- When students have the opportunity to plan and arrange Teacher's Day, Fresher's Day, and Farewell Day, they demonstrate their organisational and leadership skills.
- Staff and students attend workshops, seminars, and conferences at the state, national, and worldwide levels, where they submit scientific papers.
- Students have numerous opportunities to participate in co-curricular and extracurricular activities both on and off campus.
- Industrial visits and tours are part of the institution's annual schedule.
- Students are introduced to professional pharmacist and clinical pharmacist duties through health awareness programmes and health camps for the general public and rural women.
- Yoga and Karate classes help them to improve their physical and mental strength.
- Awareness Programs and contests on social evils and women's concerns (elocution, essay writing, debate, painting, rangoli, and face painting) empower, equip, and allow them to make life-altering decisions because the topics for competitions expose them to a variety of issues in society.
